

# Attention Students!!!

## For those of you interested in Educational Opportunities at Northwestern University,

Please attend one of the following informational event(s):

Dr. Hiroaki Kiyokawa, Associate Professor of Molecular Pharmacology and Biological Chemistry at Northwestern University, will be on campus **November 2, 2006** providing information about programs of study at Northwestern University.

**Undergraduate Students:** Get more information about various graduate programs at Northwestern University.  
*Location: The Learning Center, 425 Natural History Building, November 2, 2006 at 12:00 noon.*

**Graduate Students:** Learn about post-doc research and fellowship opportunities at Northwestern University.  
*Location: CLSL Auditorium, November 2, 2006 at 6:00 pm.*

### Biosketch

Dr. Kiyokawa received his M.D. and Ph.D. in Signaling/Endocrinology, from Osaka University in Osaka, Japan. He completed a post-doc in Cell/Molecular Biology at Memorial Sloan-Kettering Cancer Center, New York, NY. From 1997-2003 he was an Assistant Professor in the Department of Molecular Genetics at the University of Illinois College of Medicine in Chicago, IL. From 2003-2005 he was an Associate Professor (tenured), in the Department of Biochemistry and Molecular Genetics at the University of Illinois College of Medicine, in Chicago, IL.

He is currently a member of the Scientific Advisory Committee for the American Cancer Society-Illinois Division, a member on the Molecular Oncology (ONC-U) special emphasis panel for the NIH, and Co-leader of the Cancer Cell Biology Program, Robert H. Lurie Comprehensive Cancer Center, at Northwestern University.
