

## **Biological Sciences Students: Will you be looking for an MCB 290 Undergraduate Research position this coming year?**

Read the instructions on the MCB 290 web page and follow the link to our **newly revised MCB 290 Student Profile system**: <http://www.mcb.uiuc.edu/undergrad/research.html>

**You can submit your electronic MCB290 student profile *anytime*** for inclusion in the database. The on line system will:

1. Provide the MCB professors with a summary of your accomplishments and goals.
2. Make your information available to a broad array of MCB professors.
3. Provide you and your mentor with an easy way to file your MCB 290 project description electronically and enroll for MCB 290 credit.

Once your profile is approved, the **faculty can access it in the database for 4 months**.

- Questions about the student profile database? Email them to: [MCB290help@life.uiuc.edu](mailto:MCB290help@life.uiuc.edu)
- Want to discuss MCB 290 research opportunities with an advisor? Call the MCB Advising Program at 333-6775 to set up an appointment.
- Interested in a discussion on how to prepare for -- and make the most of -- the research experience? Join us for a workshop on: September 9, October 1 or November 6 at 5:00 pm. Watch upcoming Road MAP issues for room location(s).
