

New Course Sp 09
MCB 493

Glycans in Biology & Medicine

O
*Integrative course on
carbohydrate-containing
molecules, topics include....*

Glycan biosynthesis
Glycan structure & properties
Alterations in congenital disease & cancer
Cell wall biogenesis as drug target
Glycans in cellular recognition
Glycan functions inside cells
Glycans & biotechnology
Chemical glycobiology

Instructor:
Dr. Peter Orlean
Dept. Microbiology
p-orlean@uiuc.edu

Tues & Thurs 8:30-10 a.m.

Register for
MCB 493
Special Topics Mol Cell Biol
