

VIRTUAL REALITY AS THERAPY

Tuesday 5/1 7:00-9:00 pm

Lincoln Hall Room 1090

- Pre-Health major?
- Looking for patient interaction in a hospital setting?
- Interested in virtual reality technology and its uses in therapy?

Stop by to learn about the use of virtual reality as a form of therapy for hospital patients. Attendees will learn about the partnership between Division of Disability Resources & Educational Services (DRES) and Carle Foundation Hospital, and will also learn about how to become a volunteer for this cutting-edge project. At the conclusion of the informational session, a demonstration will be performed, and attendees will have the opportunity to try the virtual reality technology.
